

# ***A Review of the FamilySearch.org App Gallery***

Presented by James L. Tanner

Genealogy's Star

<http://genealogysstar.blogspot.com>

The FamilySearch.org App Gallery (<https://familysearch.org/apps/>) presently includes about 106 Apps (applications or programs) in five categories. The number of Apps is changing frequently. The Apps are specific to the operating system: Android, iOS for iPhone or iPad, Mac OS, the Web, Windows or Windows Phone. The Apps may also be free, subscription-based, one-time payment or free only to LDS members.

Connections to FamilySearch.org Family Tree may include the following abilities:

- Reads information from FamilySearch
- Updates information into FamilySearch
- Support LDS Features
- FamilySearch Account not required

The various Apps fall into the following categories:

- Find ancestors
- Family tree software
- Photos and stories
- Charts and tree views
- Tree analyzing

I suggest that you browse through the Apps and choose those you think might be helpful. I have found that many programs I try fail to become “essential” but every so often, I find one that changes the way I do my work.

Here are some of the Apps I would like to highlight:

[A Family Tree by FamilySearch - iOS](#)

[A Memories App by FamilySearch - Android](#)

[A Memories App by FamilySearch - iOS](#)

[American Ancestors](#)

[AncestorCloud](#)

[Ancestral Quest](#)

[Ancestry Android App](#)

[Ancestry iOS App](#)

[BillionGraves](#) for Mac

[BillionGraves](#) for Android

[Evidentia](#) for Mac

[Evidentia](#) for Windows

[Evidentia](#) for Linux

[Family Tree Builder](#)

[Family Tree Maker](#) for Windows

[Family Tree Maker](#) for Mac

[Find A Grave Android App](#)

[Find A Grave iOS App](#)

[Find-A-Record](#)

[Findmypast](#)

[HistoryLines](#)

[Legacy Family Tree, Standard Edition](#)

[MyHeritage Mobile App for Android](#)

[MyHeritage Mobile App for iOS](#)

[Personal Historian](#)

[PUZZILLA](#)

[RecordSeek](#)

[RootsMagic](#) for Windows

[RootsMagic Essentials](#) for Windows

[RootsMagic Essentials](#) for Mac

[RootsMagic for Android](#)

[RootsMagic for iOS](#)

[RootsMagic for Mac](#)

[StoryPress](#)

[Virtual Pedigree](#)
